

SDP EZ Hauler Digger Derricks

SDP constantly strives to position themselves as a global leader in the concept, design, and manufacturing of easement equipment by promoting and building machinery that contributes to the enhancement of the environment.

EZ Hauler 2500

At S.D.P. Manufacturing, Inc. we promise you that the *EZ Hauler* will go places you wouldn't think of taking a line truck. Try driving a line truck through a 34-inch gate, for instance! Whether your *EZ Hauler* is fitted with our expandable rubber track unit or all wheel drive with removable outer wheels, the self-propelled *EZ Hauler* easily drives through tight spaces. Once you get to the work site, the *EZ Hauler* has the power to finish the job, with its 2,500 pound lift capacity and its ability to set utility poles up to 50 feet long with ease. With the *EZ Hauler*, nothing is impossible.
